

Replacement of Reanalysis Products (MOVE/MRI.COM)

- An ocean reanalysis with an improved data assimilation method was conducted.
- Changes in the data assimilation system are
 - Improving data assimilation method of satellite altimetry sea surface height anomaly.
 - Using additional satellite altimetry data.
- The following products in RRTDB were replaced by the new reanalysis data.
 - Subsurface Temperatures and Surface Currents (MOVE/MRI.COM) on and after 1993
