

Future Work Plan of RAI and RAV

RA II

- **AOMSUC-13** in 2023 hosted by Korea together with a VLab training, and a RA II/V coordination meeting
- **SG-SWCEM-EAWP** annual meetings (2022–2024)
- **RA II WIGOS Project** – Develop Support for NMHSs in Satellite Data, Products and Training with periodically issuing **WIGOS Newsletters** related to satellite activities
- **Training course** on satellite meteorology (RTC– Beijing) (2021–2024)

RA V

- Join **AOMSUC-13** to be hosted by Korea in 2023 together with a VLab training, and support the organization of RA II/V coordination meeting (2023)
- Hold **training events** and other capacity development activities (e.g. in collaboration with VLab in RA V) (2022–2023)
- Support the implementation of **SWCEM** in RA V (2022–2023)

Strengthen engagement between INFCOM and RA II/V
