# Himawari Monthly Operations Report July 2016

# 1. Special operation events

There was no special operation of Himawari-8 during July 2016.

#### 2. Earth observation

#### 2.1 Full disk observation

The regular schedules of full disk observation are 142 times in a day. The following tables show the results of full disk observation and a summary of canceled full disk observation during July 2016.

#### Results of Himawari-8 full disk observation

|                  | Full disk observation | Remarks |
|------------------|-----------------------|---------|
| Scheduled        | 4394                  |         |
| Performed        | 4394                  |         |
| Performance in % | 100.00                |         |

# Summary of canceled Himawari-8 full disk observation

| Date | Full disk observation | Reasons |  |  |  |  |
|------|-----------------------|---------|--|--|--|--|
|      | None                  |         |  |  |  |  |

# 2.2 Japan area observation

The regular schedules of Japan area observation are 576 times in a day. The following tables show the results of Japan area observation and a summary of canceled Japan area observation during July 2016.

# Results of Himawari-8 Japan area observation

|                  | Japan area observation | Remarks |
|------------------|------------------------|---------|
| Scheduled        | 17856                  |         |
| Performed        | 17856                  |         |
| Performance in % | 100.00                 |         |

#### Summary of canceled Himawari-8 Japan area observation

| Date | Japan area observation | Reasons |
|------|------------------------|---------|
|      | None                   |         |

# 2.3 Target area observation

The regular schedules of Target area observation are 576 times in a day. The area is flexibly selected to enable prompt reaction to meteorological conditions.

The regular schedules of Target area observation are 576 times in a day. The following tables show the results of target area observation and a summary of canceled target area observation during July 2016.

# Results of Himawari-8 Target area observation

|                  | Target area observation | Remarks |
|------------------|-------------------------|---------|
| Scheduled        | 17856                   |         |
| Performed        | 17856                   |         |
| Performance in % | 100.00                  |         |

# Summary of canceled Himawari-8 Target area observation

| Date | Target area observation | Reasons |  |  |
|------|-------------------------|---------|--|--|
|      | None                    |         |  |  |

#### 3. Data Collection System

# 3.1 International Data Collection System (IDCS)

The following table shows the status of reception and dissemination of International Data Collection Platform (IDCP) messages that were received in Himawari-8 area of responsibility.

Reception and dissemination of IDCP messages

| IDCP<br>channels | Numbers of IDCPs <sup>a)</sup> | Received<br>messages | Error<br>messages <sup>b)</sup> | Messages<br>disseminated<br>to the GTS |  |  |
|------------------|--------------------------------|----------------------|---------------------------------|----------------------------------------|--|--|
| I12              | 3                              | 0                    | 0                               | 0                                      |  |  |
| I15              | 2                              | 0                    | 0                               | 0                                      |  |  |
| I16              | 4                              | 0                    | 0                               | 0                                      |  |  |
| I20              | 2                              | 0                    | 0                               | 0                                      |  |  |
| I23              | 7                              | 2552                 | 203                             | 2349                                   |  |  |
| I24              | 6                              | 1488                 | 315                             | 1173                                   |  |  |
| Total            | 24                             | 0                    | 0                               | 0                                      |  |  |

a) IDCP numbers are those registered in Himawari-DCS as of 1 July 2016.

#### 3.2 Interference on IDCP channels

The following table shows interference on Himawari International Data Collection System (IDCS) channels that occurred during July 2016.

Interference on Himawari IDCS Channels (July 2016)

| Channel      | 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 | 11 |
|--------------|----|----|----|----|----|----|----|----|----|----|----|
| Interference |    |    |    |    |    |    |    |    |    |    |    |
| Channel      | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 | 21 | 22 |
| Interference |    |    |    |    |    |    |    |    |    |    |    |
| Channel      | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 | 31 | 32 | 33 |
| Interference |    |    |    |    |    |    |    |    |    |    | W  |

Note - W: weak interference / H: harmful interference

b) No message, or message unsuitable for WMO codes.

#### 4. Satellite system status

#### 4.1 Satellite status

Himawari-8

Location: 140.7 east longitude

Operational: Observation, DCP relay

#### 4.2 Maneuver

- 1) A north-south station-keeping maneuver of Himawari-8 13:00 UTC on 4 July 2016.
- 2) An east-west station-keeping maneuver of Himawari-8 00:10 UTC on 8 July 2016.
- 3) An east-west station-keeping maneuver of Himawari-8 12:10 UTC on 8 July 2016.
- 4) A north-south station-keeping maneuver of Himawari-8 13:00 UTC on 18 July 2016.
- 5) An east-west station-keeping maneuver of Himawari-8 12:30 UTC on 21 July 2016.
- 6) An east-west station-keeping maneuver of Himawari-8 00:30 UTC on 22 July 2016.

#### 4.3 Calibration of the visible channel

- 1) 20:40 UTC on 7 July 2016.
- 2) 20:40 UTC on 22 July 2016.

#### 4.4 Orbit information

The following table shows the Two-Line Elements of Himawari-8's orbital elements.

Epoch 00:00:0.00 UTC on 27 July 2016

1 40267U 14060A 16209.00000000 .00000000 00000-0 00000-0 00506 2 40267 000.0219 110.1500 0000969 084.6311 251.0078 01.00273669 6629
