# Himawari Monthly Operations Report September 2019

## 1. Special operation events

There was no special operation of Himawari-8 during September 2019.

#### 2. Earth observation

2.1 Full disk observation

The regular schedules of full disk observation are 142 times in a day. The following tables show the results of full disk observation and a summary of canceled full disk observation during September 2019.

|                  | Full disk observation | Remarks |
|------------------|-----------------------|---------|
| Scheduled        | 4254                  |         |
| Performed        | 4254                  |         |
| Performance in % | 100.00                |         |

#### Results of Himawari-8 full disk observation

### Summary of canceled Himawari-8 full disk observation

| Date | Full disk observation | Reasons |  |  |  |  |
|------|-----------------------|---------|--|--|--|--|
|      | None                  |         |  |  |  |  |

# 2.2 Japan area observation

The regular schedules of Japan area observation are 576 times in a day. The following tables show the results of Japan area observation and a summary of canceled Japan area observation during September 2019.

|                  | Japan area observation | Remarks |
|------------------|------------------------|---------|
| Scheduled        | 17280                  |         |
| Performed        | 17280                  |         |
| Performance in % | 100.00                 |         |

## Results of Himawari-8 Japan area observation

#### Summary of canceled Himawari-8 Japan area observation

| Date | Japan area observation | Reasons |  |  |  |  |
|------|------------------------|---------|--|--|--|--|
|      | None                   |         |  |  |  |  |

# 2.3 Target area observation

The regular schedules of Target area observation are 576 times in a day. The area is flexibly selected to enable prompt reaction to meteorological conditions.

The regular schedules of Target area observation are 576 times in a day. The following tables show the results of target area observation and a summary of canceled target area observation during September 2019.

|                  | 0                       |         |
|------------------|-------------------------|---------|
|                  | Target area observation | Remarks |
| Scheduled        | 17280                   |         |
| Performed        | 17280                   |         |
| Performance in % | 100.00                  |         |

# Summary of canceled Himawari-8 Target area observation

| Date | Target area observation | Reasons |
|------|-------------------------|---------|
|      | None                    |         |

- 3. Data Collection System
  - 3.1 International Data Collection System (IDCS)

The following table shows the status of reception and dissemination of International Data Collection Platform (IDCP) messages that were received in Himawari-8 area of responsibility.

| IDCP<br>channels | Numbers of<br>IDCPs <sup>a)</sup> | Received<br>messages | Error<br>messages <sup>b)</sup> | Messages<br>disseminated<br>to the GTS |
|------------------|-----------------------------------|----------------------|---------------------------------|--|
| I12              | 3                                 | 0                    | 0                               | 0                                      |
| I15              | 2                                 | 0                    | 0                               | 0                                      |
| I16              | 4                                 | 0                    | 0                               | 0                                      |
| I20              | 2                                 | 0                    | 0                               | 0                                      |
| I23              | 7                                 | 0                    | 0                               | 0                                      |
| I24              | 6                                 | 1430                 | 5                               | 1425                                   |
| Total            | 24                                | 0                    | 0                               | 0                                      |

#### Reception and dissemination of IDCP messages

a) IDCP numbers are those registered in Himawari-DCS as of 1 September 2019.b) No message, or message unsuitable for WMO codes.

#### 3.2 Interference on IDCP channels

The following table shows interference on Himawari International Data Collection System (IDCS) channels that occurred during September 2019.

| interference on Hinnawari iDeb Chainers (September 2017) |    |    |    |    |    |    |    |    |    |    |    |
|--|----|----|----|----|----|----|----|----|----|----|----|
| Channel  | 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 | 11 |
| Interference   |    |    |    |    |    |    |    |    |    |    |    |
| Channel  | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 | 21 | 22 |
| Interference   |    |    |    |    |    |    |    |    |    |    |    |
| Channel  | 23 | 24 | 25 | 26 | 27 | 28 | 29 | 30 | 31 | 32 | 33 |
| Interference   |    |    |    |    |    |    |    |    |    |    | W  |

Interference on Himawari IDCS Channels (September 2019)

Note - W: weak interference / H: harmful interference

## 4. Satellite system status

- 4.1 Satellite status
  - Himawari-8 Location : 140.7 east longitude Operational : Observation, DCP relay
- 4.2 Maneuver.
  - 1) A north-south station-keeping maneuver of Himawari-8 10:00 UTC on 9 September 2019.
- 2) An east-west station-keeping maneuver of Himawari-8 21:30 UTC on 12 September 2019.
- An east-west station-keeping maneuver of Himawari-8 09:30 UTC on 13 September 2019.
- 4) A north-south station-keeping maneuver of Himawari-8 09:00 UTC on 23 September 2019.
- 5) An east-west station-keeping maneuver of Himawari-8 14:40 UTC on 26 September 2019.
- 6) An east-west station-keeping maneuver of Himawari-8 02:40 UTC on 27 September 2019
- 4.3 Calibration of the visible channel
  - 1) 20:40 UTC on 7 September 2019.
  - 2) 20:30 UTC on 22 September 2019
